EXPLANATORY NOTES

The foregoing index covers Volume XVII of STEAMBOAT BILL, or all issues for 1960. Page numbering and serial numbers follow:

Spring 1960	Vol. XVII	No. 73	1 - 32
Summer 1960	Vol. XVII	No. 74	33 - 64
Fall 1960	Vol. XVII	No. 75	65 - 96
Winter 1960	Vol. XVII	No. 76	97 - 128

SUBJECTS & TITLES: This is the first part of the index and includes the names of books reviewed, steamship companies, and principal bodies of water.

AUTHORS: This is the second part and is limited to authors of STEAMBOAT BILL articles and editors of regular sections.

VESSELS: This is the third part and includes all vessels mentioned in the text with the page number of each reference.

For the sake of uniformity, the system of alphabetizing used in previous STEAMBOAT BILL indexes and formerly (but not currently) in Merchant Vessels of the United States, has been retained.

Vessels are listed by every name appearing in the text. In addition, when the original name does not appear in the text, it is included if it is known to the indexer.

All entries under an original name list all subsequent names, and all page references to that vessel under all names. Entries under a subsequent name give the original name as a cross reference, but list page numbers only for the subsequent name.

The history of each vessel as given in STEAMBOAT BILL has been accepted for indexing purposes, and no additional research has been attempted.

The official number, country of ownership, date built, body of water on which operated, or similar information has been included in the index as an aid in identifying the vessels mentioned.

Abbreviations and symbols used in the VESSELS index include these:

a, b, c, etc. before the name indicates sequence of names for the same vessel, with a the earliest.

blt. before a date indicates building date.

C before a number indicates a Canadian official number.

c. before a date indicates approximation (*circa*).

s. before a date indicates vessel was in service in that year.

s.c. before a date indicates vessel was in service in an approximate year.

Unprefixed numerals, usually of six digits, are U. S. official numbers.

* before a page number indicates an illustration on that page.

This index was prepared, checked, typed and proofed through the combined efforts of the following (in alphabetical order): Stephen Dininio, Susan V. Ewen, Douglas L. Haverly, Conrad H. Milster, Jr., Joseph L. Tames, and James Wilson.

This index to Volume XVII of STEAMBOAT BILL, covering the year 1960, has been prepared by the Steamship Historical Society of America, Inc., 414 Pelton Avenue, Staten Island, New York 10310.

Established in 1935 as a means of bringing together amateur and professional historians interested in the development of steam navigation, and those persons interested generally in all self-propelled vessels, the Steamship Historical Society has members both throughout the United States and in many foreign countries.

The Society has its own extensive library and collection of marine material, holds regular national meetings at places of marine interest, maintains a Photobank of about 20,000 photographs and, besides STEAMBOAT BILL, publishes occasional books and pamphlets.

Anyone seriously interested in steam or other power-driven vessels is eligible for membership and may obtain full details about the Steamship Historical Society of America, Inc., by writing the secretary:

MRS. ALICE S. WILSON, 414 PELTON AVENUE, STATEN ISLAND, NEW YORK 10310
